

Empowering the Wise Woman Within

An Initiation: A Circle of Love

**Join us for this 7-week online community for women
seeking a warm and spirited exploration of the rich possibilities
for meaning, depth, connection and contentment
in your golden age of wisdom and maturity.**

Week by week, we'll empower the Wise Woman Within by embracing the 7 core feminine qualities that create authentic happiness and transform us into our best selves.

We'll embody the feminine archetypes described by Carl Jung and later illuminated by such Wise Women such as Jean Shonda Bolen and Jean Houston. These archetypes appear in the world's most influential cultures and represent the universal potentials conducive to our happiness and wellbeing as mature women.

Latent capacities of your true self awaken, and your multifaceted gifts are integrated into a more glorious you. You come into your full power as a woman... authentic, impassioned, empowered, loving, content, aware and divine!
